

# Watermakers Sales, Spares and Service

Extend your cruising, or operational time away from shore with fresh water available at any time. Automatic or manual models available.

## Sea Recovery AquaMatic - Fully Automatic System

The Aqua Matic watermaker features automatic operation with a touchscreen control panel that allows simple touch-and-go operations. Product water quality is now displayed in a bar graph format. Regulation and monitor systems function without the need of an operator. Sea Recovery's high-pressure design includes double O-ring seals on duplex stainless steel fittings to ensure leak-proof operation.

### Features:

- Models available producing from 1703L/day to 6814L a day.
- An automated screen informs the operator of required maintenance
- Available in a small footprint, compact frame for easy installation
- Full colour, touchscreen remote control
- Ability to display in multiple languages

*Modular model for installation in small spaces*

*Full colour LCD can be installed anywhere onboard to control the watermaker remotely.*

## Village LTM 500 - Economical Manual System

A popular manual model from Parker Hannifin, the leader in desalination. High build quality including powder coated mounting brackets, stainless steel construction, acrylic flowmeter to monitor fresh water production, booster pump, 5 micron cleanable filter.

### Features:

- LTM 500 produces 79L/Hour (1,896 L/Day) of fresh drinkable water
- Includes powder coated mounting brackets
- High pressure plunger pump with stainless steel 316 head
- Acrylic flowmeter to monitor production
